

# Extensive Tree & Shrub Care Treatments

## ***Insect Control***

**SPRING/FALL DORMANT OIL:** This horticultural oil spray helps to greatly reduce the number of destructive insect eggs like (Mites, Aphids, Adelgids, and Scale Mealy Bugs, etc.) from hatching. This oil based application coats the insect eggs, depriving oxygen to the larvae, which will cause suffocation to many of the insects. (Applied January - April / September - December)  
Starts \$60 per application. (HORTICULTURAL OIL INSECTICIDE)

**MID - SPRING & LATE SPRING ACTIVE INSECT CONTROL:** These two applications are used as a foliar spray to control or suppress soft bodied pests which include (Gypsy Moth Caterpillars, Adelgids, Aphids, Inchworms, Leaf Miner, Scales, Tent Caterpillars, Bagworms, Whitefly). These two applications are critical to controlling Gypsy Moth Caterpillar outbreaks. (Applied May - June).  
Starts \$60 per application. (SEVIN)

**HOT SUMMER SPRAY/SUMMER AND FALL CLEANUP SPRAYS:** These applications are used as a foliar spray to control or suppress soft bodied pests which include (Adelgids, Aphids, Caterpillars, Japanese Beetles, Chinch Bugs, Earwigs, Leaf Miner, Scales, Tent Caterpillars, Whiteflies). (Applied July - September) Starts \$60 per application. (CONSERVE)

**SUMMER MITE CONTROL:** This application is used as a foliar spray to control Spider Mites during the summer period on ornamental trees and shrubs, deciduous and broadleaf evergreens, foliage ornamentals and bedding plants. (Applied June - August). Starts \$60 per application. (FLOROMITE)

**GRANULAR SYSTEMIC INSECT CONTROL:** This product, when placed near the roots, is absorbed through the root system to all parts of the plant where it kills insects that enter the plantings through the root system. Insects such as (Borers, Birch Leaf Miner, Taxus Weevil, Elm Leaf Beetle, European Elm Scale, Holly Leaf Miner, Lace Bug, Leaf Hoppers, Pine Tip Moth, Soft Scale, Tea Scale, Thrips, White Flies.) (Applied April - August) \$45 per application.

## ***Disease Control***

**SPRING DISEASE CONTROL:** This is an important application for all sensitive ornamentals, such as fruit trees and evergreens, that are susceptible to diseases. Excellent for Crabapple, Cherry, and Plum trees as well as Hollies, Dogwoods and White Pines. (Applied mid April, as blooms appear)  
Starts \$60 per application.

**SUMMER AND FALL DISEASE CONTROL:** These two treatments help eradicate any existing fungus that results as the hot/humid months of Summer arrive and we continue to treat into the Fall. The treatments help eliminate diseases such as Powdery Mildew, Black Soot Fungus, Leaf Spot and Anthracnose. (Applied July - October). Starts \$60 per application.

## ***Nutrition & Protectorants***

**SPRING AND FALL DEEP ROOT FEEDING:** A specially formulated slow release nitrogen injected fertilizer which lasts up to 6 full months. You'll see fuller and richer blooms and incredibly vibrant colors on all your ornamentals and flowering shrubs such as Rhododendrons, Azaleas, and all other flowering plants. This application is the most important treatment for your tree and shrubs, it feeds the roots for new growth and strength and the shrub becomes less bearable to insects and disease. (Applied March - May / Sept. - Nov.).

**(Continued)**

**SUMMER FOILER FERTILIZER:** Liquid tree and shrub fertilizer that is an excellent nutrient boost for trees & shrubs under stress. (\*Gypsy Moth Caterpillar damaged trees). (Applied July and August) Starts \$60 per application.

**WINTER WEATHER SHIELD:** This application creates a moisture barrier. It locks in a plants moisture during the cold Winter months. It prevents winter burn on ornamental trees and shrubs that keep their leaf or needle all Winter long. (Applied November - February) Starts \$60 per application.
